Product Benefit & Technical Specification

Quality

Our Fine china has the composition of Kaolin, Ball clay, Feldspar, Silica and fired at 1,300°C that is the temperature range that makes the products to be able to make its body durable enough for serving all functional usage with 0% water absorption.

Our products are tested and passed water absorption Standard test BS EN 1217.

By research and development, we have created our own glazes formula and use the pure raw material with finest quality. This brings up the Natural Pearl White Color with translucent qualification.

The result of whiteness reading is 89–90.5 based on ASTM C1510–01

Impact Resistance

The reinforce specially designed to maximize strength, reduce cracking and chipping.

Our products meet the strength requirement of American standard Edge Chip: ASTM C368–88 (>0.04 ft.lb)

Dishwasher & Microwave Safe

The products are safe to use with industrial dishwashing machines. The glaze and decoration do not stain or loss their brilliance or color, with dishwashing machine in excess of 1,000 cycles.

The products are passed detergent durability test prEN 12875–4:2000.

Our products are also guaranteed to be completely microwave safe.

Cut & Scratch Resistance

The hardness of our glaze helps prevent any cut & scratch remain on the surface. We pay special attention to polish and form the foot of our tableware in order to guarantee a smooth foot, reducing the risk of abrasion and scratching during stacking.

Functionality

Our products are designed to stack which aims storage and facilitates space saving. The multi-functional of our products allowed flexibility to combine and reduce the article for example the coffee cup, soup cup and mug will fit onto the same saucer.

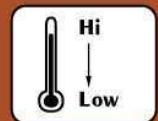

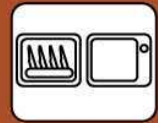

Thermal Shock and Crazeing Resistance

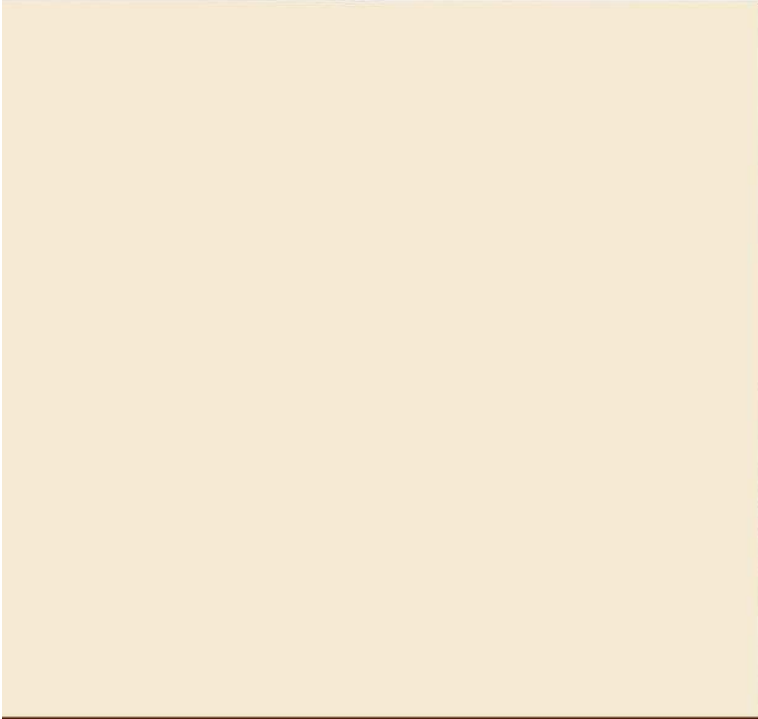

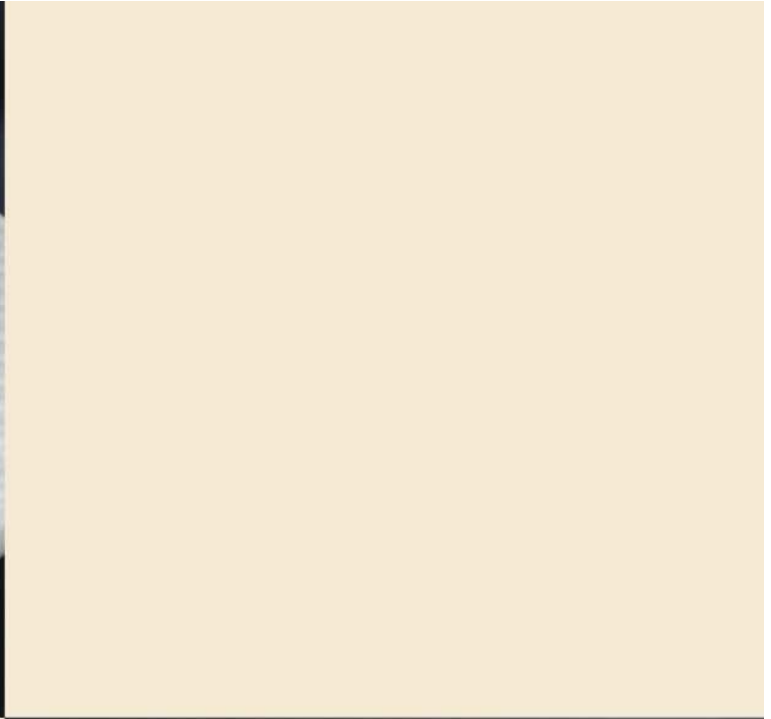

Our products are tested at the extreme temperature condition. The products can resist the sudden change from norm temperature to 220°C.

The products are tested and passed the Crazeing Resistance standard BS 4034.

Lead and Cadmium Free

Our products are tested and passed the lead & cadmium free under standard test FDA, California Proposition 65 and EU Directive 84/500 EEC
