BUFFETWARE

Buffetware

IV standard glass tableware is offered both in transparent and in handmade decorated version.

All our decorations are rigorously handmade, from metallized colours, to gold and platinum decoration, to glitter finishing up to gold or silver leaf.

The transparent versions are dishwasher resistant, while the hand-decorated ones must be hand-washed only.

DSPF TREATMENT

In order to meet the requirements of the HoReCa professionals, for several decorated items we developed the DSPF - Dishwasher & Scratch Proof Formula - Treatment process, that increases the decoration resistance to dishwasher cleaning and scratches due to storage activity. The DSPF Treatment is available on request for specific items indicated on the catalogue.

Customization

In addition to the standard range, on request IV can customize standard items and design bespoke items, with great flexibility: from the application of a logo/ trademark to the engraving of motifs with sandblasting, serigraphy or laser techniques, up to the realization of exclusive models for decoration, shape and size.
